Save a Life, Prevent Crime, Find Missing People

Robinson, IL 2006-June-02 -- Everywhere's Local is seeking willing people to help catch criminals before they get away, from the comfort of their own home or office. Our crime and missing persons feeds (containing any major crime, missing children, and missing adults) are available from our website, but require the police organizations to post any crimes before it's available.

Our crime feeds are provided in a standard RSS/XML format and can be read through any newsreader. Likewise, all crime alerts are available for viewing on our website directly. We also provide a small "missing persons poster" for any missing persons, printable from our website for businesses to post in their windows.

These feeds are provided with both local town specific, and global feeds. Anyone is able to post an alert, for this reason we desire to have police agencies monitor the feeds. The only information we request for the feeds, is the same information as is given to other media agencies (who, what, when, where, and descriptions).

The goal is simple: 1) A crime happens; 2) a police agency posts the crime to our site; 3) everyone subscribed to the feed, or just visiting our website, will be notified within minutes of the crime happening; 4) the perpetrator will be spotted quicker, and any missing persons will be found quicker. All crimes remain online until their solved.

ABOUT Everywhere's Local -- Everywhere's Local is a community based website, that provides free classifieds, housing, and events; and "make an offer" priced job postings, sales fliers, catalogs and advertising banners. 35% of our profits are given back to the community, 25% of the 35% is given to the community where funds were generated.
